1 First Section

Creating documents with LaTeX is simple and fun.

1.1 Sub-section-1

Creating documents with LaTeX is simple and fun.

1.2 Sub-section-2

Creating documents with LaTeX is simple and fun.

2 Second Section

Creating documents with LaTeX is simple and fun.

2.1 Sub-section-1

Creating documents with LaTeX is simple and fun.

2.1.1 sub-sub-section

Creating documents with LaTeX is simple and fun.

3 How to start a paragraph

Creating documents with LaTeX is simple and fun. In contrast to Word, you start off with a plain text file (.tex file) which contains LaTeX code and the actual content (i.e. text).

paragraph Creating documents with LaTeX is simple and fun. In contrast to Word, you start off with a plain text file (.tex file) which contains LaTeX code and the actual content (i.e. text).

subparagraph Creating documents with LaTeX is simple and fun. In contrast to Word, you start off with a plain text file (.tex file) which contains LaTeX code and the actual content (i.e. text).

you start off with a plain text file (.tex file) which contains LaTeX code and the actual content (i.e. text).

4 Space doesn't matter

It does not matter whether you enter one or several spaces after a word.

An empty line starts a new paragraph.

Creating documents with LaTeX is simple and fun.

In contrast to Word,
